

FREE FORMULATION: EASY 10-MINUTE LIP BALM

Phase	Ingredients	Weight (g)
A	Beeswax	22.00
A	Cocoa butter	27.00
A	Castor oil	20.00
A	Sweet almond oil	28.70
B	Coffee CO ₂ extract	1.50
B	Tocopherol	0.50
B	Peppermint essential oil	0.30
	Total	100.00

FORMULATION METHOD:

1. Sanitise all your utensils and work area.
Put on gloves and an apron to protect yourself and your formulation.
2. Weigh out all of the phase A ingredients into a glass beaker or a heat-proof jar
3. Heat phase A in a water bath until all of the wax and the butter has melted completely and are fully blended together.
4. Weight out phase B ingredients while phase A is heating. Once you remove phase A from the heat it will not take long for the balm to begin to solidify around the edges so you want to have phase B ready.
5. Remove phase A from heat and cool.
6. Add phase B.
7. Decant into your chosen packaging, label and enjoy!
